

The 5th International Forum for Lysosomal Storage Diseases Program (July 11-13, 2019, Tokyo, Japan)

Thursday 11 July
3rd Floor, The Auditorium, The Jikei University

15:00-15:40 Sponsored by Takeda: Special Lecture 1

Chair: Prof. Eto Yoshikatsu (Southern Tohoku Neuroscience Institute / Tokyo Jikei University)

- A1** After three decades of research and therapy, what is left to do in the LSDs?
Prof. Grabowski Gregory (Cincinnati Children's Hospital)

15:40-16:00 BREAK

16:00-16:30 Welcome Lecture

Chair: Prof. Tsuji Shoji (The University of Tokyo)

- A2** New Era of Rare Diseases (RD)-Novel Advances of Lysosomal Disorders
Prof. Eto Yoshikatsu (Southern Tohoku Neuroscience Institute / Tokyo Jikei University)

16:30-17:00 Keynote Lecture: Special Lecture 2

Chair: Prof. Imanaka Tsuneo (Hiroshima International University)

- A3-1** Novel enzyme replacement therapies for LSDs: challenges to address neurodegeneration
Dr. Sato Yuji (JCR Pharma)

17:00-17:30 Keynote Lecture: Special Lecture 3

Chair: Prof. Takahashi Tsutomu (Akita University)

- A3-2** Pathophysiological consequences of Retromer dysfunction in Neurological Disorder
Prof. Okano James (Tokyo Jikei University)

17:30-18:00 Keynote Lecture: Special Lecture 4

Chair: Prof. Ohashi Toya (Tokyo Jikei University)

- A3-3** Impact of Genomics on Rare Diseases: Past, Present, & Future
Prof. Desnick Robert J. (NY Icahn School of Medicine at Mount Sinai, NY)

18:00-18:40 Keynote Lecture: Special Lecture 5

Chair: Prof. Eto Yoshikatsu (Southern Tohoku Neuroscience Institute / Tokyo Jikei University)

- A3-4** Recent advances of autophagy
Prof. Noboru Mizushima (The University of Tokyo)

19:00-21:00 Welcome Party
